

# ZILZIE

## REGIONAL COLLECTION

heart | land | river | hands

Beyond the boundaries of the Zilzie Estate are some of the most prestigious wine regions in Australia, including the Barossa and Coonawarra. Owner Andrew Forbes and Chief Winemaker Jonathan Creek have built long term relationships, partnering with like-minded family growers, and have painstakingly selected small parcels of fruit that showcase the unique terroirs and varietal character of these world-class winegrowing regions.

**Barossa** is one of the world's great wine regions and led the way in bringing premium Australian wine to the world. The Barossa is characterized by its rolling hills and valleys that are covered in a patchwork of vineyards. There aren't many Australian wines as famous as the Barossa Shiraz.

### 2020 BAROSSA SHIRAZ

Zilzie is bringing a more contemporary style Shiraz from the Barossa to the world. Rich with cherry, plum, and dark chocolate, highlighted with coffee beans and vanilla oak, this Shiraz is full-bodied on the palate with a superb structure and smooth, velvety tannins.

Selected parcels of Shiraz fruit from the renowned Barossa region were fermented in rotary fermenters for a period of 8-12 days, ensuring the wine's freshness and depth of flavor. The wine was gently pressed, underwent malolactic fermentation, and was then matured in French oak for approximately one year before bottling. This approach has produced a Shiraz with excellent depth of color, richness, and complexity.

*With its vibrant fruit characteristics and the influence of oak, this wine presents layers of fruit and spice that are exquisitely balanced. It is enjoyable now and will also mature beautifully over the next few years for those who prefer to wait.*
